

# BARIME - 2017

1<sup>st</sup> National Post graduate CME on Bariatric Surgery

1-2 December, 2017

*Venue:* Dr Ramalingaswami Board Room

AIIMS, New Delhi

Organized By  
Foundation for Obesity Research and Metabolic Surgery (FORMS)  
& Department of Surgical Disciplines  
All India Institute of Medical Sciences, New Delhi  
Website: [forms.com.co](http://forms.com.co)

Dear Friends,

Bariatric surgery or weight loss surgery is getting popular across the world. There are selected departments/division in large hospitals dealing exclusively with bariatric surgery. There are dedicated books on this subject as well. However, this field of surgery has been overlooked as a part of postgraduate curriculum in most medical colleges across the country. All India Institute of Medical Sciences(AIIMS), New Delhi, being one of the leading centres for bariatric surgery in the country, along with Foundation for Obesity Research and Metabolic Surgery (FORMS) has taken this initiative to sensitize and stimulate the minds of young surgical residents towards bariatric surgery.

The CME shall focus on providing comprehensive knowledge about bariatric surgery. There will be live operative workshops where three standard procedures will be demonstrated. After each procedure there will be detailed discussions and lectures focused on the same. Ample time shall be provided for questions and answers after each talk. There will be sessions on patient counseling, perioperative work up, post op management and dietetics.

We look forward to welcome you at this inaugural course.

***Prof. Sandeep Aggarwal***
