Dear Friends,

Bariatric surgery or weight loss surgery is getting popular across the world. The indications of this surgery have expanded over time and now the surgery is known by the name of Metabolic and Bariatric Surgery. There are selected departments/division in large hospitals dealing exclusively with bariatric surgery. There are dedicated books on this subject as well. However, this field of surgery has been overlooked as a part of postgraduate curriculum in most of the medical colleges across the country. All India Institute of Medical Sciences (AIIMS), New Delhi, being one of the leading centres for Metabolic & Bariatric surgery in the country, along with Foundation for Obesity Research and Metabolic Surgery (FORMS) has taken this initiative to sensitize and stimulate the minds of young surgical residents towards bariatric surgery.

The CME shall focus on providing comprehensive knowledge about bariatric surgery. There will be live operative workshops where three standard procedures will be demonstrated. After each procedure there will be detailed discussions and lectures focused on the same. Ample time shall be provided for questions and answers after each talk. There will be sessions on patient counseling, perioperative work up, post op management and dietetics.

We have successfully conducted two such CMEs. This 3rd CME to be held at AIIMS, New Delhi shall be a certified course by FORMS & AIIMS on the Basics of Metabolic and Bariatric surgery. We look forward to welcome you at this CME&course.

Prof. Sandeep Aggarwal
Organizing chairperson

Glimpses from previous BARIME

Scientific Programme

Day -1: 12.11.21 – 11.30 am- 6 .30pm Day-2: 13.11.21 – 9.00 am- 4 pm
